     °   **Security Awareness**--The backup material will provide a cross section of the myriad number of OS security awareness briefing programs available to the Agency and Intelligence Community. Samples of the briefing materials can be made available.

     °   **OPSEC and Counterimagery Security Programs**--Backup material will provided a narrative explanation, data examples, and photographs.

     °   **Family Day Program**--Since this is a directorate-wide program, backup material can be obtained from all DA offices (except picture of Badge Office employees fingerprinting the children of Agency employees).

Once a decision is made as to which of the OS topic ideas will be used, the responsible OS elements will be tasked to track the selected activity and develop an appropriate package that can be used in the DA FY 1990 Annual Report.
